

Part-Time Online Mathematics Teacher

Theophilus Thobejane

Location: Kempton Park, Gauteng (SAST - Available 12:00-15:00 daily) | **email:** thobejanetheo@gmail.com | **phone:** +27 66 360 3021 | **LinkedIn:** [linkedin.com/in/theophilusthobejane](https://www.linkedin.com/in/theophilusthobejane) | **GitHub:** github.com/TheoInCodeLand | **Portfolio:** theophilus-portfolio.vercel.app | **Availability:** Immediate | **Commitment:** Long-term (1+ years)

PROFESSIONAL SUMMARY

Tech-savvy ICT graduate with an Advanced Diploma in Applications Development and proven experience breaking down complex STEM concepts for diverse learners. Former University Tutor specializing in adaptive teaching methodologies that align with Singapore Math's Concrete-Pictorial-Abstract (CPA) approach. Combining strong mathematical foundations (Mathematics, Physics, Life Sciences) with advanced technical capabilities to deliver engaging, interactive online instruction for young learners aged 5-12.

EDUCATION & CREDENTIALS

Advanced Diploma in Information and Communication Technology (Applications Development)

University of Mpumalanga, Mbombela | *Completed: November 2025*

Certifications: IBM Applied Data Science with Python, IBM Agile Explorer (Scrum/Kanban), IBM Data Fundamentals

TECHNICAL & CLASSROOM CAPABILITIES

Online Teaching Infrastructure:

- **Hardware:** Intel Core i7 CPU, 16GB RAM, 50+ Mbps fiber (wired connection), professional headset with noise-cancelling microphone, HD webcam
- **Platform Proficiency:** Advanced competency with video conferencing platforms, interactive whiteboards, and digital learning management systems
- **Digital Resources:** Experience creating visual learning aids, diagrams, and interactive materials to support pictorial learning stages

Classroom Management:

- Quiet, dedicated teaching space with professional background suitable for young learners
- Backup power solutions ensuring 100% attendance reliability
- Demonstrated ability to maintain student engagement in virtual environments through TPR (Total Physical Response), visual cues, and interactive questioning

PROFESSIONAL PROJECTS (Teaching-Relevant)

Axiora AI: Educational Knowledge Base | *Stack: FastAPI, Pinecone, LLM Integration*

Live Impact: 37+ job descriptions analyzed, improvement in application process

- Designed adaptive learning pathways using semantic search and context-aware responses
- Implemented multi-tiered explanation systems (simplified → detailed) catering to different comprehension levels—mirroring CPA's staged approach

TEACHING & TUTORING EXPERIENCE

University Tutor – ICT & Mathematics Concepts | 2023 – 2025

University of Mpumalanga, Mbombela

- Delivered 2 production AI systems for real business clients, managing full lifecycle from requirements gathering to deployment
- Client Communication: Translated technical AI concepts (embeddings, RAG, LLM prompting) into business outcomes (time saved, customer satisfaction)
- Iterative Development: Rapid prototyping with 2-week sprint cycles, incorporating stakeholder feedback into AI behavior tuning
